# professional hair care and styling

## hair care specialist

### Intensive Hair Care

Our Intensive Hair Treatment helps to restore the health, shine and the softness of dry, damaged and weak hair. It also helps to repair, seal and smooth your hair. It's time to give your hair the care it deserves.

### Coloring, Repair and Treatments

Coloring your hair is an extremely good option available for those people who are thinking of making their thinning hair look plumper.

Repair and Treatments are recommended for pre-coloring, post color, damaged, and chemically processed hair or to strip harmful polymers and residues left from shampooing and conditioning the. Your hair will be softer, shinier and more manageable than you thought possible. Restore your hair's natural luster and shine!

### Perms and Waves

Perms and Waves can add body and definition to dull, fine hair and can reduce the amount of time needed for styling, as well as cut down on the need for excessive, damaging styling tools.

### Japanese Hair Straightening

Goldie is a trained expert on Japanese Bionic hair straightening. It will give you soft, silky, shiny, straight hair and, your hair will be healthier!
